Best Temperature Sticker (BTS)
Product name

Product sketch

Purpose: Gain information of temperature

Price: \$ 100

Product description and other information:

When we don't know the temperature, we put it on (this sticker).
For example, in case of a classroom or library that we often visit,
there is a low temperature (cold) because of the air conditioner, even though
it is summer. So, you attach this sticker and you get the temperature
information you want at the place. The price seems expensive because of
high technology, but it is cheaper to drive because it is always used together.
(I want to use "BTS" for the advertisement according to...)
